From the Author’s Preface:

(After praising Allah and sending salaat and salaam upon Prophet Muhammad, his Household and Companions, our Shaykh states):

“This book I am Proud to be a Muslim consists of forty short chapters in each of which I mention a reason for being proud to be a Muslim. These reasons come from the Glorious Qur’an and the ahadiith of the Prophet صلى الله عليه وسلم.

Some of these values of Islam, though important in themselves, do not get highlighted enough in a holistic approach to Islam. Hence the need to highlight them now specially when the benign and humane teachings of Islam need to be presented in a way which is not only acceptable to the new generation, but is also attractive to them. ...”

From the Publisher’s Note:

“The 40 carefully selected gems create a powerful portrayal of real Islam.”
