Question

Respected Shaykh,

I would like to know why مثل and مثل are $mans\bar{u}b$ in the following three sentences in Madinah Book 2:

Faḍīlat al-Shaykh Dr. V. Abdur Rahim (حفظه الله) replies:

Dear Br Tanweer,

The words ذَهَاباً وإِيَاباً are maf ul muṭlaq of verbs which have been omitted.

The *taqdīr* is:

Both the nouns (\mathring{a}) and \mathring{a} are na^t .

These nouns (غَيْر and غَيْر) remain *nakirah* even when they are *muḍāf* of *ma rifah* nouns.

والسلام, abdur rahim
