

اللغة العربية

«أَبٌ، وَالِدٌ»

Question

I would love an explanation of the difference between

أَبٌ and وَالِدٌ .

Faḍīlat al-Shaykh Dr. V. Abdur Rahim (حفظه الله) replies:

The two words أَبٌ and وَالِدٌ have the same meaning, but each has its own area of emphasis.

While the second word emphasizes the biological aspect, the first refers more to the emotional relationship.
